

BETCO®

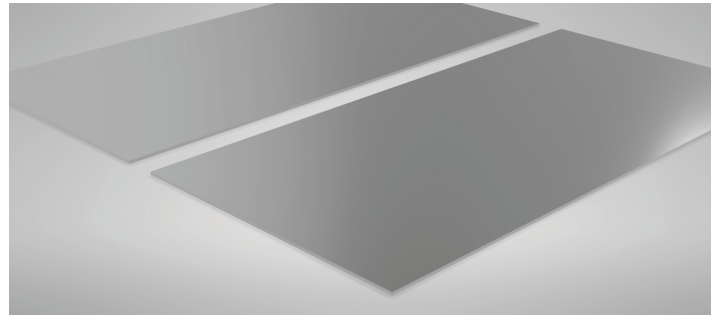

BETCO DECK ACCESSORIES RENDERINGS

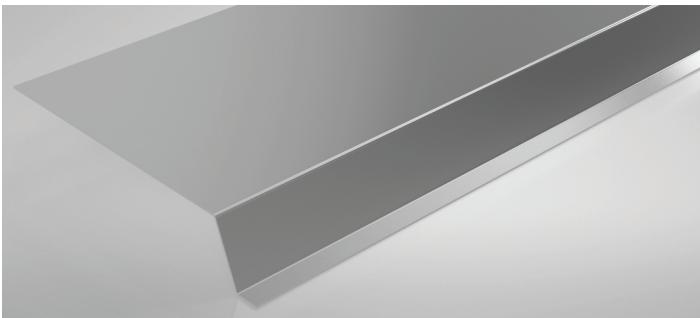

BETCO is expanding its steel decking line with a full range of deck accessories designed to support and streamline your next build. These additions are made to provide the finishing touches that matter most. From cell and column closures to pour stops, girder fillers, side closures, and more, BETCO's accessory lineup offers the flexibility, fit, and function builders rely on. Whether you need ridge or valley plates, zee closures, or simple flat stock, these components help ensure structural integrity, material coverage, and clean transitions—every time.

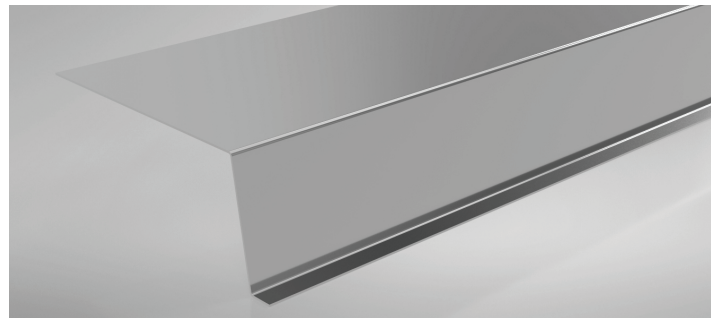

CELL CLOSURE

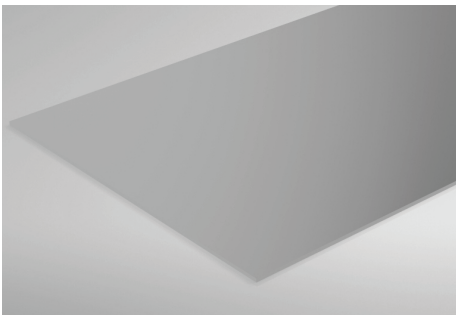

COLUMN CLOSURE

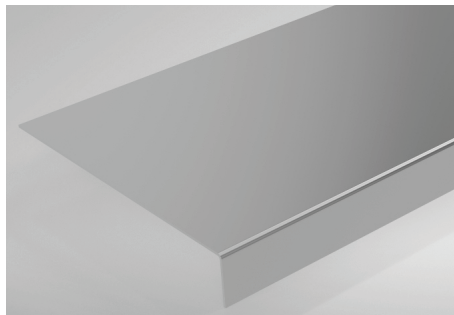

FILLER SHEETS 1-1/2" Deck (B-deck)
